### Legal Authority

Legislative Finance Division tracking code

### Source of Revenue

Used as a proxy for potential new DGF codes until the legislature uses the new fund source in a final bill.

### Restrictions on Use

This code should never appear in a final bill; all new fund codes in a final bill should be established before the bill is generated.

### Description and History

December 2016

This code is a temporary tracking code used as a proxy for potential new DGF fund codes:

- 1) introduced in the Governor's request;
- 2) proposed during legislative deliberation; or
- 3) proposed in a fiscal note.

The code is intended to reduce/eliminate the proliferation of fund codes that are proposed but never used to appropriate funds. The code should never appear in a final bill; all new fund codes in a final bill should be established before the bill is generated. The code should be classified as inactive in order to generate diagnostic errors upon use in bills.
